Girl Site Setup-Girl 13 or Older

Previous steps: Site Registration Girl 13 and over

1

Once in the site, the setup functions just like the Girl Under 13 Site Setup. The difference is that “Step 3>See Your Cookie Site and Publish” will have a button at the bottom of the page instructing the girl to: “See your site and submit for approval”

STEP 3  REVIEW YOUR DIGITAL COOKIE PAGE AND PUBLISH  REQUIRED

2

A preview of her site will display and she can either make additional edits or submit it for parent approval.
Once she has submitted the site for approval, you will receive an email that your daughter’s site needs approving.

When you click the green button in the email, you will be sent to your Girl Scout’s site preview. From there you can review it and either “Approve and Publish” to have her site go live, or click the “Edit’ button to make changes. If you make changes, when they are complete, click “Approve and Publish”. You might want to let your Girl Scout know you made changes.
The girl will receive an email confirmation that her parent has approved her site. Now she is ready to send marketing email to customers.

Dear [Girl Name],

Yay! Your Digital Cookie site has been approved! You can start accepting Girl Scout Cookie orders on [council-specific cookie season opening date].

After this date, your site is open for business, and you will be able to:

- Add your customer information, if you haven’t already done so
- Invite customers to purchase cookies by:
  - Sending from marketing emails
  - Sharing your cookie site with friends and family (remember, only share with people you know and trust)
- Display your cookie goals to customers

Remember, your Digital Cookie site will be open from now until [council-specific cookie season dates].

Good luck, and have fun naming your own business!
