RAFTING - CAUTION: When planning your whitewater rafting activity, please make sure to check with vendors about the constantly changing water levels, especially in the spring and early summer as the rain season ends, and the snow caps begin to melt. Rapid classifications can change based on water levels, and what was originally considered a Class I Rapid at the end of the previous season, may be considered a Class III Rapid at the beginning of this new season. Council will work with troops to approve whitewater rafting activity on a case by case basis depending on the age level and experience of the Girl Scouts.
