Arts, Crafts, and STEM

From crafting and the arts to STEM projects, girls create, develop, and engage in a variety of projects. The activities are broad and varied and can include painting, pottery, beading, sewing, astronomy exploration, and engineering design and investigation—to name just a few.

Making Activities Accessible

In order to make your activity accessible to girls of all abilities, it's important to communicate with all girl attendees and their caregivers to learn about and accommodate their varied support needs.
